Introduction

2014 was another year of growth for Student Energy. Our most notable accomplishment was the successful launch of our first-ever Regional Student Energy Summits. The idea behind the Regional Summits was to make our unique conference format available to as many students as possible and give them the opportunity to explore their own regional energy contexts. Thanks to the tireless efforts of student-led planning teams in Aberdeen, Cape Town, New York City and Mexico City we were able to successfully run 4 summits on 4 continents simultaneously – a massive accomplishment for everyone involved!

Another exciting development was the addition of our very own monthly radio program called “Energy Voices.” The show is a partnership with the University of Calgary’s radio station, CJSW, and is podcast globally every month. It has experienced early success with our second episode received a National Community Radio Association award for Best Current Affairs Episode.

Student Energy also saw large revenue growth in 2014 - 33% over 2013 to be exact. As an organization, we are still working to strike the balance between sustained revenue growth and increasing levels of activity and number of programs.

We are also looking forward to what is coming next; 2015 is going to be a huge year for Student Energy. Two of our biggest initiatives ever will be taking place - we will be hosting the International Student Energy Summit in Bali, Indonesia and our energy literacy web platform will finally be launched after over two years of effort. Don’t take your eyes off of us, we have big plans!
**LATIN AMERICAN STUDENT ENERGY SUMMIT**

- Students in Attendance: 300
- Host University: Universidad Nacional Autónoma de México (UNAM)
- Chair: Jorge Luis Hinoma
- Student Planning Team: 19

**SPEAKER HIGHLIGHTS:**
- Larry Goulder, Professor of Environmental and Resource Economics at Stanford University
- Dr. David S. Renné, President of International Solar Energy Society
- Alejandro Ríos, Director of the Bioenergy Research Consortium at Masdar Institute

**EUROPEAN STUDENT ENERGY SUMMIT**

- Students in Attendance: 200
- Host University: University of Aberdeen
- Chair: Małgorzata Olesiewicz
- Student Planning Team: 35

**SPEAKER HIGHLIGHTS:**
- Jim Skea, Professor of Sustainable Energy at Imperial College
- Christian Redl, European Energy Cooperation team Agora Energiewende
- Femke De Jong, Carbon Market Watch
AFRICAN STUDENT ENERGY SUMMIT

- Students in Attendance: 90
- Host University: Cape Peninsula University of Technology
- Chair: Steve Arowolo
- Student Planning Team: 10

- SPEAKER HIGHLIGHTS:
  - Dr. Elizabeth Rasekoala, Green Shift Africa
  - Dr. Wolsey Barnard, Deputy Director General, Department of Energy South Africa
  - Frank Dinter, Concentrated Solar Power (CSP) at University Essen, Germany

NORTH AMERICAN STUDENT ENERGY SUMMIT

- Students in Attendance: 340
- Chair: Janice Tran and Varun Soni
- Student Planning Team: 17

- SPEAKER HIGHLIGHTS:
  - Peter Boyd, Chief Operating Officer, Carbon War Room
  - Shaun Chapman, Senior Director, Solar City
  - Kate Sinding, Deputy Director National Resource Defense Council
MEMBERSHIP
Student Energy launched its annual membership to give students access to a global network of events, journals, experts and fellow students who are all working to transition our world to a sustainable energy future.

ENERGY VOICES PODCAST
Energy Voices is our magazine-style radio show aimed at bringing long form journalism back to energy and stoking a vibrant dialogue on crucial energy topics. This program is an hour long, pre-produced show taking place once per month in partnership with CJSW Radio station. It provides a unique, non-traditional channel through which to educate students and the greater public on different perspectives of energy and sustainability topics.

STUDENT ICON PARTNERSHIP
Student Energy has partnered up with the OGM to highlight the amazing work of students all over the world. Check out the profiles at: www.theogm.com/student-icon

PARTNERSHIP WITH THE UN SUSTAINABLE ENERGY 4 ALL (SE4ALL) INITIATIVE
Student Energy teamed up with the United Nations Sustainable Energy 4 All initiative this year to bring the youth voice to their annual forum. In addition to leading the youth session in New York City, Student Energy also hosted the leader of the initiative in an interactive twitter chat.

PROFILE
Student Energy continued to get recognized for the unique approach we take to energy education and dialogue. Our Executive Director, Kali Taylor received the GLOBE Next Gen Entrepreneur Award and was featured in news stories in many prominent energy publications.
