

# STUDENT ENERGY CHAPTER PROGRAM

STUDENT ENERGY IS A GLOBAL NOT-FOR-PROFIT CREATING THE **NEXT GENERATION OF ENERGY LEADERS WHO WILL ACCELERATE THE WORLD'S TRANSITION TO A SUSTAINABLE ENERGY FUTURE.**

## WHAT ARE STUDENT ENERGY CHAPTERS?

Student Energy Chapters are an opportunity for students to establish a local branch of the organization on their campus as a club or society. Chapters allow students to leverage our global brand and organizational knowledge to take action on energy in their communities by facilitating energy debates, executing energy projects, or hosting regional summits. Plus, the Global Chapter Network is an incredible opportunity for students to connect to and work with their like-minded peers from around the world.

## WHY SET UP A STUDENT ENERGY CHAPTER?

### TURN YOUR IDEAS ON ENERGY INTO REALITY

- Through the Chapter Network, Student Energy will share its extensive knowledge on how to take action on energy with chapter members - accelerating student's abilities to facilitate energy debates, build energy projects, and host international and regional summits.
- Tap into Student Energy's extensive network of high-level energy actors from industry, governments, academia, and NGOs.
- Access to Student Energy's key information and strategy on recruitment, fundraising, sponsorship, event planning and energy projects.
- Build your own community of like-minded students who will work with you to shape the future of energy.

### GLOBAL NETWORK OF ENERNERDS

- Be part of one of the largest global community of university students taking action on energy.
- Connect to and collaborate with peers around the world who are working on projects with you.
- Travel and join our global community at events, including special opportunities to participate in the International Student Energy Summit.
- Have the chance to host or attend a Regional Student Energy Summit.
- Participate in a global enernerd exchange.

### MENTORSHIP OPPORTUNITIES

- Guidance and support from Student Energy staff and alumni.
- Create lasting relationships with the future's most innovative energy leaders.
- Access to Student Energy's network of energy leaders.

### GLOBAL BRAND RECOGNITION

- Leverage Student Energy's well-known global brand to gain credibility for your initiatives and work.
- Use Student Energy's resources to create professional high-quality events and products that represent your vision for the future of energy.

# HOW DO I START A STUDENT ENERGY CHAPTER?

## PHASE 1

EXPRESSION OF INTEREST

### EXPRESSION OF INTEREST

Fill out a simple form to let us know you are interested in starting up a Chapter at your University. Student Energy's Community Manager will review the form and let you know what the next steps are for you within a week.

UNQUALIFIED

QUALIFIED

### MEET REQUIREMENTS

If you meet the basic requirements, and we have space in the program, you'll be sent the onboarding package. This package will include key organizational documents you need to review before moving onto the next phase.

## PHASE 2

ONBOARDING CALL

### ONBOARDING

You will be given a time and date for your onboarding call. On the call, you will meet the Community Manager and receive more information on what being a Student Energy Chapter means. We'll talk about your ideas, goals, and aspirations to start a Chapter. We'll also let you know what expectations we have for you.

REJECTED

ACCEPTED

### FINAL EVALUATION

Your onboarding call along with your expression of interest will be assessed and evaluated. Based on these components you will be either accepted or reject from the program. If rejected this may just mean that we are not ready to take you on just now. However, in the future, we may be in the position to do so. So keep in contact with us.

## CONGRATULATIONS

WELCOME TO STUDENT ENERGY

### WELCOME!

Congratulations! You are now an official Student Energy Chapter. You will be accepted into the Student Energy Chapter community and given access to valuable logos, documents, and information which will help build your Chapter. We're starting a fantastic partnership between you, your school, and Student Energy. Together we'll shape our energy future.

## EXPECTATIONS

The primary goal of Chapters is to give students the opportunity to foster their own enernerd community and take action on energy.

Student Energy sees the Chapter Program as a key part of what we do and will expect chapters to achieve a certain level of activity each year. As accelerators of our movement, founding chapter leaders should be ready to devote time to this initiative, and be inspired by the results.

Becoming a Student Energy Chapter is a large undertaking and does require a substantial amount of work. Students must acknowledge that they are aware of this and are prepared to put in the extra time to make their Chapters successful. However, these additional hours will be incredibly beneficial to your personal development, and you will most certainly reap the rewards of your efforts.

## CAN EXISTING ENERGY CLUBS JOIN?

Yes! Student Energy's Chapter Program has two branches, and you'll have the opportunity to join either. Here's what it looks like:

If you are already part of an energy club on your campus you can still be part of the Student Energy Chapter Network. Existing clubs are invited to join the network as a Partner Club, meaning you can keep your current name and brand while also collaborating with Enernerds from around the world through Student Energy's Network.

If you would like to take on the Student Energy brand, you will need to go through the formal process of becoming a chapter.

## JOIN NOW!

Interested? Great! [Follow this link to apply](https://studentenergy.org/chapters), or learn more at [studentenergy.org/chapters](https://studentenergy.org/chapters).

Once you fill out the form we'll be in touch within a week! Talk soon, Enernerds.
